

OZONO AND CEDROLINE.—The new, non-falling and infallible Hair, length, lustre, life, and beauty. One year ago the directors of the BOSTON CHEMICAL CO., with the sole purpose and intention to produce an absolutely perfect and reliable treatment for the Hair, appropriated the sum of \$6,000 for this purpose alone. The services of three of the world's most noted chemists were secured, who, after twelve months of investigation and costly experiments, have successfully formulated a treatment so potent and powerful, yet so harmless and innocuous, that its immediate effects upon the Hair border upon the miraculous. This treatment can be used in all faith and confidence, as it is certain to produce results most gratifying, causing the Hair to grow long and luxuriant, straight, and of a most delicate and pliable texture. It prevents the tendency of the Hair to draw up, contract, curl, and tangle, thus making it easy to dress the Hair in any style desired. It causes the Hair to grow out on all bald spots, scant partings, thin places, and bare temples. It is sure to prevent the Hair from falling, breaking off, and splitting at the ends. This great combined treatment is now the most wonderful remedy for the Hair in the whole wide world.

The most generous offer ever made by any firm on earth. Cut out this advertisement, and send to us, with only \$1.00, and immediately upon receipt of same, we will send to you a full and complete treatment, consisting of two extra large boxes of OZONO, king of all Hair Tonics, worth \$2.00; also two large bottles of CEDROLINE, the lightning Hair Grower, worth \$2.00; also one large package of our latest discovery, POWDERED EGG SHAMPOO, worth 50c; also one bar of our celebrated and renowned PURITY SOAP, worth 25c; and one 1-pint package of ANTI-ODOR, the most wonderful toilet specialty of the day, worth 50c. This grand collection, worth in all \$5.00, will be sent on receipt of \$1.00 and your name and address, with full, plain, and complete directions, together with our beautiful Souvenir Catalogue, justly called the toilet educator of the day.

NOTE.—To all who have ever bought OZONO we will send this great bargain offer for only \$1.00. Your word will be sufficient. Simply tell us when food Agents, who can simply coin money selling our preparations. No matter where you live, we can get our goods safely to you. Do not delay; order today. Address

AMERICAN PATE DE FOIS GRAS

Settlement of Bohemians in Wisconsin Town Where the Goose Livers Are Produced.

Persons who read of the tortures inflicted upon geese in France and Germany, where the celebrated pate de fois gras is made, are seldom aware that in one place in our own country the same methods are used to fatten geese for the Hebraic population in New York. In Watertown, Wis., says the New York Herald, there is a settlement of Bohemians where the women pursue this work as the chief industry of the place. The geese are nailed by their web feet to the floors of wooden cages set in dark, warm rooms.

They are then fed with all they can possibly eat and when appetite fails they are crammed with noodles made of a dough of corn and buckwheat and forced down their throats with a stick. Every two hours this forced feeding is applied and in a few weeks the bodies of the tortured fowls are distended like pumpkins, the liver alone frequently weighing from one and a half to two pounds, and the geese from 20 to 25 pounds.

They are then killed and plucked by the women, the latter operation being completed before they are really dead, and are shipped to New York city.

Arriving there, they are put in cold storage, where they may remain for months or years. They are esteemed a great delicacy by many persons, and quantities of them are used.

AN AMERICAN DESERT.

There is No Cultivated Place on the State Line Between Utah and Arizona.

H. B. Carpenter, a civil engineer who has just completed the survey of the southern line of Utah, says the boundary between that state and Arizona does not cross a foot of cultivated land. It traverses a desert which is cut up by great canyons that are almost impassable. The length of the line is 277 miles.

Landmarks along the line will make it possible for the boundary to be located without any difficulty in the future. Just east of the Colorado river a sandstone butte rises 1,000 feet above the plain, and the very peak of this butte is exactly on the boundary. Mr. Carpenter named the peak State Line butte. Not far from this butte is another, which stands 1,300 feet above the plain, and was named Tower peak. These two gigantic stones, says the Philadelphia Record, will always be a guide to persons who have enough curiosity to penetrate the desert in search of the state line.

Drugging Flowers.

Ever since the days of that floral abomination, the green carnation, we have known that flowers are susceptible to influence of drugs and can be made to change their colors by proper, or, rather, improper, treatment. This branch of floriculture has been pursued further by inquiring people, and it seems that plants are as liable to the effects of poisons as are human beings. If you give a flower too much chloroform, it will not agree with it. In the words of the operator, "it droops and dies." It is difficult to see what is the advantage of this particular study. Everyone knows that flowers can be killed far too easily. If some scientific person would find a way of causing them to bloom all the year round in our climate, that would be something of a discovery—less scientific, perhaps, but much more acceptable—London Truth.

Lives in a Trunk.

LIFE IN THE NORTHWEST.

If you have any idea of changing your location—go into the northwest where life is worth living.

It is the coming empire of this country. Climate and elevation are found in great variety and will never be as low priced again as it is now. For farming, fruit raising and grazing no portion of our country equals it. Irrigation makes the farmer independent where irrigation is practiced and the finest irrigable part of our lands are in Montana and Washington. The towns and cities are growing rapidly in the Northwest.

Let me know what you want and we will try and help you. There are all sorts of places and kinds of land in the Northwestern states through which the Northern Pacific runs. Don't wait until it is too late to go. Low settlers rates are in effect during September and October. Write to me where you want to go and I will tell you what costs.
